

Story

Kochi, is a bustling city where space is at a premium. Here, for the most, the benchmark of luxury living would be spacious, elegant and well appointed 3/4 BHK homes that offer and enhance a sense of well being, comfort and peace of mind. For Level 100 Realty, however we start from this benchmark. Roots, our premium boutique villas in Thrippunithura illustrate just that. Homes reflect the personality of those they nestle and nurture. They speak of the achievements of the proud owners; their dream realised. To fully appreciate this, this we have designed Roots with intricate care and attention to detail.
